Comments of the Protestion Religious Press.

From the Methodist. The American people seem determined to ventilate it thoroughly, and to settle, once for all, such a public opinion about Irish and Roman Cathlic interference with public order as shall not adult of a recurrence of such atrocities. Public patience can endure no more. The Catholic clergy deserve commendation for their previous admonitions against riot, though the Bish-op and others mingled with their exhorta-tions irritating romarks on the Orangemon. So far as any direct interference in the case is concerned, we may all frankly exonerate it. But a sober question remains and cannot be evaded. What of its indiand cannot be avaded What of its indi-rect responsibility? Why, in a Church of such almost absolute clerical power over the consciences of the

From the Liberal Christian, Unitarian,

Anxiety to get rid of a crew so disgrace-ful and Selfish and dangerous will not al-low good citizens to concede any prudence or justice in any occasional act of wiedom or discretion which such a Government performs, for fear that its hold on power may thus be prolonged. Thus we are by no means certain that Mayor Hall's first proc in the was not a highly judicious let, id it be had been a man respected or true of, or belonged to a sound and pa-triots y, we suspect that the atorm of indignation and abuse with which it was triots y, we suspect that the atorm of heretofore been laid down by both friends indiguation and share with which it was and foss. For the last two weeks what is fearful yet magnificent scene presented received would have been either a mild called the "Litteral Current of the Lake," while the storm raged. But the sense of

breeze or perhaps have blown the other or the shore ward from the northeast down way. Nobody can pretend that the sons of St. Patrick are allowed an annual parade from respect of their rights, or from respect to the rights of all citizens. They represent too many votes and too much muccular atrength and too violent a class to make at easy to deny them a claim which is yet conceded only in spite of the disgust, the inconvenience, the murmurs, the unwillingness, and the suffering interests of three quarters of the people. St. Patrick's Day is an annual offence, a chronic nursance, a legalized wrong to four-fifths of the citizens or New York. It costs them trength and too violent a class to make i nnually three millions of dollars in the interruption it causes to business. It is a perpetual nussance. It exhibits a horde of trish Catholics, who estentatiously block the ways, interrupt the crossings, stop the cars and omnibuses, establish a disconnection between the upper and lower parts of the city, provoke needless ammosities, and endanger the life of the such. It is fast growing by allowance into an alleged right, which, when it becomes insupportable, is yet likely to cost a fight compared with which the rich of July 12th was a mere shirmish. The claim of the Orangemen to parade had its only show of reason in the allowance given to St. Paragement.

as a public right, we do not see. But we deny that right. HALL—WORDS FAIL TO EXPRESS THE IN-FAMT.

To aurrender to a mob, even when its lemands are in themselves not unreason-able, is wrong and mischievous. But when its demands are not reasonable, but, on its demands are not reasonable, but, on rethe contrary, upjust and arrogant, words of fall to express the infamy of that act for which Mayor Hall is justly held accountable. His only escape from popular opproblum, made doubly orushing by the Governor's official condemnation, is to withgraw from the office he has diagraced, and seek forgetfulness in exile. Since the first ing on Sumter we have heard no epithets of expressive of popular disgust and indexes.

EXTERIANS AND THE RING

This phenomenon is variously theorized on as to its came. Last night there was a tremendous rain-atorm, with lighting the hastory of Romanism. The scenes which have transpured in this city, the lastigation of a riot, murderous in its intent, by Irish Roman Catholies, who had declared their purpose to suppress the anal procession of Protestant Orangement, by murdering them in the streets if the onty authorities would not currender to the demands of the moch, and forbid the procession, the surrender of the authorities, the indignant uprising of the people, the indignant uprising of the people, the indignant uprising of the people, the indignant uprising of the people. procession, the surrender of the authorities, the indignant uprising of the people, the triumphant vindication not only of law and order, but of equal civil rights, and equal religious liborty, and equal privileges for Protestants and Romanists.

We do not accuse the Pope of Rome, nor Archbishop McCloskey, nor the Roman Catholic priests in this city, of getting up this right. But was do use there in this riot. But we do may that it was in the interest of Romanism, and that Roman

Catholon priests in this city, of getting up to make a construction of the series of Romanium, end that Romanium and the assault upon a Protestant processor, and it is right and proper that the animus of the things should be stated.

The presence or winds from the northeast, rashed for two-thirds of the time into the bay through this canal aperture; as though this, being the first opening that prosented itself in its "littoral," course, it made haste to seize the opportunity to swell the waters of the inside pond to its own level; and then, abrading the inside shore line of Minnesota Point, it has gone to reinforce the currents of the St. Louis and Left Hand rivers—the practical effect on the entry being to deepen its channel two feet, with a corresponding increase of depth on the bar at the lake end of the unfinished canal, as setual soundings show. Under this known condition of things, as to effect of the canal's construction thus far, it is not empressing that even our friends of Superior City are in a state of bewilderment whether the proposed dyke ecross the bay will not be a dire injury, and whother the canal, by allowing the "Littoral Lake current" to make a circuit through the canal and out at the entry, is not to prove their greatest blessing?

MORE "DEMOCRATIC UNITY."-A. H Stephens is as intractable as ever. He has had so much of rebellion against the gov ernment that he rather tires of seceding, and so he don't propose to secede from the genuine Democratic idea which animated him during the Democratic war against the government. Also Stephens edits the Atlanta Sun, and he fulminates five mortal columns sgainst the new departure, aimed particularly at the Montgomery ed. Mail. In reference to the Harrisburg resolutions-or "Jere. Black's platform"-Mr. Stephens says that, instead of 1873, two millions and a half of Demopurpose, that it shall not be done. The new departure people have succeeded in closing the mouth of Jeff. Davis; but Mr. Stephene is a tough customer, and very talkative. The worst of it all for the Democracy is, that the old rebels believe in Aleo and will follow their leader rather than pretend to affiliate with negro voters for the sake of obtaining power, and then depart back again.

And the Memphis Appeal, is also in clined to adhere to the old ideas of the white man's government, "When the Democratic party," it says, "becomes so bankrupt for want of votes as to repudiate its principles, and like a faded ocquette sets its cap, puts on its sweetest smiles, and uses every art and blandishment, ac-

The resolutions denounce Gov. Hoffman and praise the Mayor and the city authorities for their order prohibiting the procession. The preamble, which is considerably longer than the Orange procession, begins with declaring the freedom of speech and of the press, and of the right of the people to assemble for political or religious purposes, and gracefully slides off into a denunciation of the Orangemen

At no time in the history of Titusville could avestments in real estate be made with such an absolute certainty of safety, and of sure profit, as at present. Every one is aware that our business depends upon the product of oil, and, to a great extent, on the proximity of the wells to our city. THIS MUST BE READ. The present development, just outside of the city, surprises the oldest inhabitant. Of the durability of the wells in the Church Run district, all operators have but one opinion. The

street improvements about to be inaugurated. together with the water works, make this not only a desirable place for residence, but establishes Titusville fixedly, as second to no city in America for the business man. Judge Lowrie will explain itself: MEADVILLE, July 22, 1871. J. A. Cadwallader, President of Council,

Titusville, Pa. : Sin: I have again referred to your let ter of the 234 ult., communicating the re meat of the Council that I should advise them in relation to the election of an Auditor, the time of election having passed before the final passage of the law for his election. It is very rarely that it can be proper for a judge to give any advice in reation to matters arising in his district; but in this instance I see no impropriety in saying, and I think I am right in saying that the Council may now provide for his election under and in pursuance of law at such reasonable time as they may or-PANTS GOODS. dain, to hold the office until the next election appointed in and by act of Assembly. Respectfully yours, &c.,

The above authoritative opinion would seem to justify the Council in ordering a special election for Auditor, and we preame they will take such action at their For style and make they have next meeting. This would obviate all difficulty arising from the defect of the recent amendment, and our much needed street improvements could be inaugurated without further delay.
